CHINA REFUSES

Says Positively That She Will Not Sanction Treaty With Russia.

ATTY. GEN. GRIGGS OUT

The City of Ashland Fired By Tramps This Morning—Narrow Escape.

POWERS-HOWARD DECISION TUESDAY

Pekin, March 23.—The Chinese government positively refuses to sanction the Manchurian treaty with Russia.

GRIGGS RETIRES FROM CABINET

Washington, March 23.—John W. Griggs, attorney general, has resigned his position and will return to New Jersey next week to resume his practice of law. He has made a good official and the president is loath to part with him. His successor has not been decided on, definitely.

ASHLAND'S NARROW ESCAPE

Ashland, March, 23.—The town was fired in three places simultaneously this morning, and had a narrow escape from complete destruction. Prompt work, however, got the blaze under control. The big coal tipple and a number of cars were destroyed. The work was the deed of two tramps.

POWERS-HOWARD CASES

Frankfort, March 23.—The appellate court judges have had a long conference today about the Powers and Howard cases and a verdict is expected Tuesday.

VERY PESSIMISTIC

BRITISH FOREIGN OFFICE BLUE OVER CHINESE SITUATION.

Japan is Determined to Oppose Any Secret Arrangements Between China and Japan.

London, March 23.—The foreign office takes a pessimistic view of the immediate situation in the East in spite of the settlement of the Tien Tsin question and entertains grave fears that the relations between Japan and Russia may shortly reach the danger point.

Judging from information obtained in various official quarters in London, Japan has confided to at least some of the powers her determination to oppose all at costs any secret agreements made between Russia and China by which the former could secure territorial or other advantages contiguous to Korea.

The British government has received no official announcement that Japan is mobilizing, but it will not be surprised to learn that such were the facts.

EXONERATED.

Louisville, Ky., March 23.—The committee appointed by the local bar association to investigate the conduct of Judge Barker and Attorney Kinkaid in the Alvey gambler case brought in a report today completely exonerating these gentlemen. Governor Beckham, who made the charges failed to bring in his evidence or attend the meeting when requested to do so.

AFTER AGUINALDO.

Manila, March 23.—General Funston, with a company of native scouts has gone on a whirlwind march into the province of Asabilla in the hopes of capturing Aguinaldo.

FOSTER CAUGHT.

HE PLEADED 'GUILTY' AND WAS HELD TO ANSWER.

John Foster, colored, who cut Wallace Strickland at a dance a few nights ago, was caught last night by Officers Rasor and Dugan. When arraigned before Judge Sanders he said he wanted to plead guilty and was allowed to waive examination, his bond being fixed at \$300. Marshall Owen, charged with being accessory, was released on his own recognizance.

Strickland is said to be suffering from the wound inflicted on his face, erysipelas being threatened. "Snake" Wade and Polly Baker, colored charged with disturbing the peace, both swore they didn't do it, although the evidence was against them. They had an altercation near First and Court and Judge Sanders will probably issue warrants against them for false swearing, as they were warned to tell the truth before they testified.

Edna Merrill, white, for being drunk and disorderly was fined \$3 and costs.

THE "MOOCHERS"

THEY ARE MAKING HAY WHILE THE SUN SHINES.

The "moochers" are now coming down the home stretch. For several weeks they have been affectionately courting the various candidates for Democratic nominations, and their success has been in most instances quite gratifying. But next Thursday it will all be over. The candidates, needless to say, will be highly pleased to get rid of the ever-alert politicians, parasites, who can do nothing but drink to the toast "Take something." The aforesaid "moochers," however, have no idea of disbanding. In a few weeks the city Democratic primary will be in its ascendancy, and they intend to get in their "graff" on the candidates for city nominations and help them spend their money.

In the meantime, the moochers are making the best of the situation by looking for candidates on every corner and in every saloon.

LOVE FEAST.

Berlin, March 23.—The war office has received the following from Count Von Waldersee:

"The Anglo-Russian dispute at Tien Tsin has been settled from a military standpoint in a manner satisfactory to both parties at a conference between Gen. Wozzack and Gen. Barrow. Both guards and posts have been withdrawn and salutes have been exchanged."

"The British declare that no offense to the Russian flag was intended and that the alleged removal of the Russian boundary marks was neither by the command nor with the knowledge of the military authorities."

"The work on the disputed land will not be continued until the governments have reached an agreement as to its possession or until a special understanding has been attained."

A Rochester, N. Y., man was fined \$1,000 for kissing a pretty, trained nurse who attended his wife in her last illness.

A fraud order has been issued by the postal authorities against a fake matrimonial bureau of Syracuse N. Y., which has caught many suckers.

Nine lives were lost and twenty-six persons were injured in a railroad wreck in Australia.

The dogs of war have been muzzled for a while.

You're Not Safe

From burglar's intrusions, however careful you are but unintentionally leave openings to "gratification" entrance to your home and business place. A policy in the Ocean Guarantee Corporation insures you against loss by their intrusions and unlike any other, it covers your property whether vacant or occupied. Costs you nothing to know the details of the policy and but little to throw its protecting arm about your property.

Respectfully, JULIUS FRIEDMAN, Office No. 331 Broadway, Fire, Tornado, Life, Accident, Boiler and Burglary.

SPRING TRADE

Suffers a Back Set on Account of the Recent Bad Weather.

WHOLESALE TRADE GOOD

The Manufacturing Concerns are Very Busy and There are Few Idle Men.

ALL THE BUSINESS NEWS OF INTEREST

Spring trade is suffering a setback on account of the very unseasonable weather of the past week. The retail dry goods and millinery stores are having good business, but the clothing men are doing little yet. Easter is but two weeks off, yet things can open up very lively before that time.

The wholesale men all report good business, with the volume in some lines much in excess of last year's good record. The hardware men, the whisky people, the dry goods houses and the grocery men are all very busy.

The manufacturing concerns are all busy and rushed with business. The Famous Pants factory building is completed today and the installation of machinery, etc., will be rushed to an early completion. The wood working plants sing the same song of humming industry, and general conditions were seldom better. The quota of working hands is very large and an idle man is a rarity. As a consequence of this splendid condition retail trade should be a record breaker this spring. The conditions are at least, very favorable.

With the new trust company proposed last night and the increased capital of the Paducah Banking company and the added trust feature, Paducah is in a fair way to get a much increased working capital as well as a new feature that the city has needed for some time.

There is much building going on at present and a good deal more in prospect. There is a growing demand for residences, the demand keeping ahead of the added supply. City Engineer Wilcox has issued the following permits in the last few days:

W. C. Overstreet, frame building on Trimble between Ninth and Tenth, \$1,000.

Addition to Illinois Central hospital, on West Broadway, \$21,775.

W. E. Cave, brick building on Madison street between Eighth and Ninth, \$3,400.

Mrs. S. M. Gardner, frame dwelling on Jefferson street between Eleventh and Twelfth, \$1,150.

Dal Powell, frame dwelling on Madison between Tenth and Eleventh, \$1,100.

J. W. Lockwood & Bro., frame on Seventh between Husbands and Rockmon, \$140.

F. M. Fisher, repairs on building on Broadway between First and Second, \$300.

C. W. Smith, frame addition, Willie street between Sixth and Seventh, \$150.

Elijah Reeves, box house on Ninth between Husbands and Rockmon, \$200.

L. S. Duffois, frame on Madison street between Tenth and Eleventh, \$500.

W. M. Hailey, frame on Tenth street between Monroe and Madison, \$250.

Business with the banks the past week has been fairly active, with a good counter and mail business. Clearings for the week were \$445.

689.09. Money is in good demand.

The tobacco market the past week has been about the same as for the past month. Prices were very satisfactory and the rejections light.

Inspector Miller reports for the week etc., as follows:

Receipts for week, 181 hogsheds.

Receipts for year, 1694 hogsheds.

Offerings for week, 67 hogsheds.

Rejections for week, 5 hogsheds.

Private sales for week, 4 hogsheds.

Sales for week, 66 hogsheds.

Sales for year, 698 hogsheds.

ENGINEER BASS DEAD.

HAD BEEN ILL FOR THE PAST TWO MONTHS.

Mr. James Bass, aged 50, died today at his home on South Third street from a complication of diseases, after a two months' illness.

He was formerly assistant engineer for the Paducah Water company, but two months ago resigned to accept another position, and the following day became ill. He was born in Tennessee but had resided here for the past sixteen years. He leaves a wife and several children. The funeral will take place tomorrow afternoon at Oak Grove.

PARENTS TO COME.

MAJOR HARRIS RECEIVES A COMMUNICATION FROM ROBERT COLE'S PARENTS.

Mr. W. C. Cole, postmaster at Lawrenceburg, Ga., writes Attorney Joseph Harris that he and his wife will probably attend circuit court here April 1 to look after their son, Robert Lee Cole, the harness maker in jail for stealing three rings from Mr. R. C. Callahan's residence.

They say he was prostrated by sunstroke a few years ago, and has never been right since. They say they will stick to him and try to secure his release.

DATE FIXED.

THE ELKS CARNIVAL WILL BE THE WEEK OF MAY 13.

The executive committee of the Elks this morning decided on the date for the carnival in May. Owing to the Confederate reunion and other things, it was uncertain whether the carnival would be the week of the 13th or the week of the 20th.

This morning, after receiving telegraphic advices from Secretary A. C. Atkins, who is in Owensboro, the committee selected the week beginning the 13th of May. This now completes everything and there will be nothing to delay arrangements which will be rapidly perfected.

CITY MATTERS

Mayor Lang Will Call a Council Meeting for Monday Evening.

THE NEW NOZZLE SYSTEM

Caldwell Street Improvement From Tenth to Eleventh to Be Received.

THE MAP OF THE CITY FINISHED

Mayor Lang will call a meeting of the council for Monday night to consider several matters.

One of the most important will be receiving Caldwell street between Tenth and Eleventh, which has already been received by the committee.

The coffee house license transfer desired by a Mayfield man named Carr, at Ninth and Washington, will probably be made, although there is some opposition to it.

The city is to purchase the new nozzle system tested yesterday. The cost for the various appliances is only \$185, and they are said to be the best thing invented in recent years for fire fighting. With them streams may be increased to an inch and a half, or shut off entirely in an instant by the man at the nozzle. Two hose streams may be merged into one, or one stream divided into two. The insurance men are greatly pleased with it.

The work of clearing away the debris from the Ogilvie site, at Fourth and Broadway, is nearing completion and building will begin at once.

The draining of the big pond near the city hospital has not yet been completed, owing to the rain. It was begun several days ago, and was quite a job. Bushels of crawfish and about 50 or 75 other fish were caught by the workmen. The pond may fill up again but it will drain off almost immediately.

The map of the city, ordered by the council to assist the assessor, is about complete. Engineer W. W. Lyon has been at work on it for over a year, with the exception of the time he was employed on the Broadway improvement, and it is quite a marvel in its way, fully attesting Mr. Lyon's ability. The map, or rather maps, for every block in the city, with amount of property owned and name of owner, elevation, etc., is given in detail. The map will be of incalculable benefit to the future city assessors, and to all others who desire information relative to real estate.

The Illinois Central has just put in about 40 feet of 15 inch iron pipe at First and Washington to drain into the city's big pipe going to the river. It is quite an improvement to the locality.

CLAIM AGENT.

EFFORT MADE TO COMPROMISE CASES ON ACCOUNT OF

Clay Switch Wreck—Fulton Doesn't Expect Much—Other Railroad Notes of Interest.

L. L. Losey, of Chicago, chief claim agent of the Illinois Central railroad, is expected. He comes to adjust the personal claims of those who were killed and wounded in the wreck at Clay Switch last week. Also the losses of freight consigned from shipper to consignee. It is given out that the railroad will settle the claims of the administrators of those killed in the wreck, and pay off the wounded, without having the suits brought into court. Drummond, the Mayfield operator, whose mistake caused the wreck, has gone to his home near Chattanooga.

An unknown negro was killed on the Illinois Central railroad yesterday between Clinton and Thurmond. The pile driver was coming south and a freight was going north on the new double track. The negro stepped from one track to another to get out of the way of the pile driver, when the freight struck him. The noise of the pile driver train probably drowned out the warning approach of the freight, which killed him.

The city authorities of Fulton will demand that the Illinois Central railroad protect the public from dangerous accidents at the Lake street viaduct. A letter was written yesterday to Assistant General Manager M. Gil-

A DAILY THOUGHT.
"When you say, 'I don't care' see that your tone of voice doesn't indicate that you do."

The dogs of war have been muzzled for a while.

Carnegie gave the English beggars the cold shoulder when called on to loosen up for them.

King Edward wants to have a world's fair of his own. Is he jealous of Paris, Buffalo and St. Louis?

The German emperor wore a shamrock on St. Patrick's day. Probably he intends running for an office soon.

Edwin A. Abbey, an American artist, has been selected by King Edward to paint the coronation scene. Score another for America.

Philadelphia will be the next recipient of Carnegie's bounty. It is thought he will give the "City of Brotherly Love" \$5,000,000.

General Shafter has received his award. He has been placed on the retired list. Retiring (to the rear) is one of Shafter's strong points.

Minister Wu has been in Chicago this week and has had the people of the Windy City on the rack by the number and variety and impertinence of the questions he asks. The old fellow is very wise and level-headed and has a good deal of fun everywhere he goes.

Many brokers are deserting Chicago, going to Milwaukee, and the Windy City is frightened. The withdrawing members claim the Chicago board has put irksome laws in force and otherwise making things disagreeable. If Chicago could lose some of her brokers it would not be such a noisy town.

Still the combinations, or communities of interest as Pierpont Morgan calls them, come. The latest is the merging of all of the Illinois coal mines into one concern. The project is well under way with promise of an early consummation. The capital of the syndicate will be \$75,000,000 and 40,000,000 men will be on its pay roll.

The managers of the Alden Knitting mills are very much pleased with the success that they have met with in the starting of their factory. The financial success of the institution is already assured and the mill will be one of the leading manufacturing enterprises in Paducah in a short time. It is the success of such factories as the knitting mill, the Cohansey Mfg. Co., and the pants factories that will make Paducah widely known as a prosperous manufacturing city. Paducah already has a splendid reputation on account of her woodworking factories, her saddle and collar factories, her vinegar and her tobacco factories. The Paducah pottery is also one of the best known and most successful in the south. The greatest of success has attended the Cohansey Mfg. Co., and with the added reputation that will come from the operation of the Alden Knitting mill and the Famous Pants Co., Paducah will be known far and wide as a textile and clothing manufacturing city. These factories also furnish an opportunity for work for women that is of great advantage to those desiring work. The pay in these factories averages much better than that of typewriters or saleswomen and is but little if any lower. There is but a limited demand in retail stores and offices for women, while there will always be a growing demand for them in these factories. The wages depend, of course, upon the skill of the operative and the skill increases with practice and application. Thus the operatives at the knitting mill are not now earning nearly as much as they will be able to earn after a few weeks' practice.

King Edward has issued an edict that deputations seeking an audience with him must appear in court dress, something to the Lord Chamberlain that "this is not a republic." So the story goes but if King Edward really made the remark attributed to him he is not the shrewd political observer that his friends have claimed him to be. Regalia, uniform and glittering pageants do not make a monarchy.

reports to him of the doings of their departments, as it is said that he recently has done; he may magnify his prerogatives as much as possible, but he will never dare to cross the line that has been well defined by England's unwritten constitution. In England the people rule; in a good natured way allow their king to advise the government leaders if he desires so to do. He can grant pardons, can make some appointments and is the unquestioned arbiter in matters of society. But once let the King of England attempt to rule in the real sense of the word, to make the people realize in fact that England is a monarchy and not a republic, and his throne would be taken from him in a moment. No one knows this better than King Edward and he will content himself with the semblance and not the reality of monarchical authority.

IT IS THE WAY YOU USE IT.

IT'S THE METHOD EMPLOYED WHICH MAKES SUCCESS OR FAILURE.

One man with pen, ink and paper can produce a landscape, another man with same pen and ink may not be able to write his own name legibly. It is all in knowing how.

It is equally true in the use of medicines. The same remedies we have today have existed for thousands of years, but if their existence was known the knowledge of how to use them was lacking.

They became valuable to the human race only when experiment and science showed the way to use them to get results.

The grip is an old disease with a new name; it is really catarrh in character and the usual symptoms are those of acute catarrh, but the old time catarrh powders, salves, and sprays do not cure it, neither does the application of antiseptics through an inhaler give anything more than relief for a short time.

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local application to the nose and throat avail little because the germs are in the blood and through the whole system.

Stuart's Catarrh Tablets contain many of these same antiseptics, that are used in sprays and inhalers, but instead of applying them to the inflamed membranes of the nose and throat, they are taken into the stomach and thus reach the blood, the real seat of the disease, and drive out the infectious germs through the natural channels of the bowel and kidneys.

In other words Stuart's Catarrh Tablets reach the cause of the mischief instead of merely local symptoms. The remarkable success of these tablets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretions of mucus, which causes the hawking, spitting and gagging, because the secretion is not supplied from healthy blood.

Two years ago, Stuart's Catarrh Tablets were unknown but today they have become so popular through positive merit that druggists everywhere in the United States, Canada and Great Britain now sell them.

"IT SAVED MY LIFE."

I was in bad health this spring and could not sit up in bed for four weeks. When I began to sit up, I felt so weak and had such terrible pains in my back and hips. I had kidney trouble, heart trouble and falling of the womb. I also had hysterical spells. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theford's Black-Draught. Since April 20th, I have taken four bottles of Wine of Cardui and three packages of Theford's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had it not been for Wine of Cardui. IT SAVED MY LIFE.

It is well that women are more patient than men. Few men could bear the bitter pangs, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

WINE OF CARDUI

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in this city are never dragging periodical pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theford's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theford's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

The Week in Society.

The Doings of the Smart Set the Past Six Days. Pleasant Events and Personal Mention.

The great wheel of pleasure is beginning to revolve just a little more swiftly, enough so to show there is still some "go" in it. Mid-Lent is generally marked by a relaxation of the Lenten strictness, and this week we have had a dance, something hitherto tabooed, added to the usual more informal affairs that distinguish events at this time. Doubtless after this little spurt, though, everything will settle back into the quietude that precedes the Easter time. And it is a needed rest for all, as a recent writer says:

"The worldly person ought to be as righteously thankful for the period of the year termed Lent as those who are wont to repeat 'Ay, Lord,' in their daily tasks. We have all been through the mill—the more brilliant, the less shine there is left to ourselves for many days after. We pant for repose as the hart for the water brooks; the glint of tinsel hurts our eyes, the sun is almost garish, and sound, we feel, should be conveyed only on pneumatic tires. This, then, is the time for resolution to take place in our sore spots. Our environs should be unconquered, our digestion ordered on the simplest plan; in other words, Lent has the intention of quieting our nerves and regulating our bodies properly, as well as our consciences. Those who partake grudgingly of the season's opportunities and benefits will reap sparsely, of course. However, I should never advise self-examination before going to bed, for pathological, not religious reasons; the every-day sinner could scarcely imagine the head that wears a crown resting more uneasily than his own!"

Perhaps only to the club woman has Lent brought no spruce from activity. Who can say she does not believe in the life strenuous? And we are not inclined to quarrel that she does, but for her these "short and simple annuals" would come up often sadly lacking. The heart of the society reporter does bless her and trust in her.

PLEASANT EVENTS.
The leading event of the week was the dance given on Tuesday night at the Knights of Pythias hall. It was not strictly a Zenda club dance, for "as a club" they are keeping Lent, but was a mid-Lenten celebration given by some of the young men. It was a delightful occasion and all the more enjoyed, perhaps, because of the previous quiet. Among those present were:

Mr. and Mrs. Harry Hinkle, Mr. and Mrs. Clint Wilcox Mr. and Mrs. James Foster, Mrs. P. H. Stewart, Misses Lura Lemon, Myrtle Bryant, Carrie Grace, May V. Patterson, Birdie Gilbert, Irene Schwab, Chas. Fisher, Chas. Sugars, Will Epstein, Albin Barclay, Edwin Thompson, Harry Swain, Roscoe Puryear, Leon Groves, Burleigh Jenkins, Parker Chastaine and E. B. Jones.

Miss Alice Compton's "Talks on Florence Art" is being given on Wednesday with Mrs. Cook Husbands, Jefferson street. "Botticelli" is the artist under discussion, and the interest of the subject is always heightened by Miss Compton's clever treatment.

Ladies' day at the bowling alley was attended by quite a number of the devotees of the game. There will soon be some champion players among our athletic girls. After this Tuesday will be ladies' day, instead of Wednesday, and there are prospects of an extra morning, probably Friday, if the interest justifies it.

The Whist club held one of its most delightful meetings on Wednesday evening with Mrs. B. Weille, Sr.,

North Eighth street. Mrs. Jacob Wallerstein was the fortunate winner of the first prize, and Mrs. Lee Schwab captured the second. Whist is being much enjoyed by this club which is very congenial in its membership. This meeting was voted an especially pleasant one, both as to the evening's pleasure and Mrs. Weille's hospitable and delightful entertainment.

The Euchre club was most charmingly entertained by Mrs. Louis Levy at her attractive home on North Eighth street on Wednesday afternoon. The first prize was won by Miss Tessie Blum, of Nashville, and the second by Mrs. Herman Friedman. Delightful refreshments were served during the afternoon, and the occasion was most enjoyable. The next meeting of the club will be with Miss Irma Hecht, West Broadway, on Wednesday afternoon.

The Shakespeare club met on Wednesday morning with Mrs. Eli Boone and held a most pleasant session. The play of "King John" that is being studied now leads one far afield, and much interesting side-study is being done along historical lines. Mrs. Boone gave a most entertaining paper on "Cardinal Beaufort, the Pope's legate." The next meeting will be with Mrs. B. Cowgill, West Jefferson street, on Wednesday morning.

The Delphic club had a most interesting meeting on Tuesday morning with Miss Lucie Robison, North Ninth street. Lord Byron was the subject for discussion. Mrs. Parham, the leader for the morning, gave a very delightful sketch of his "Life," while Mrs. Caye told very entertainingly of his "love affairs," and Mrs. Russell of his "Poetry." Miss Lucie Robison read "The Prisoner of Chillon." The meeting will be with Miss Robison again on next Tuesday. Thomas Moore is the subject, and Mrs. Davis, the leader. The members are urged to be present as it is the annual election of officers and a meeting of much importance.

The Monday Afternoon club was very delightfully entertained this week by Miss Nernie Greg, of Cincinnati, who has been spending the winter here, at the residence of her aunt, Mrs. Henry Rankin, Broadway. Jonathan Swift was the character study, and Miss Mary Corbett led the discussion very interestingly. Miss Clara Thompson was appointed chairman of the charity work for the next two weeks, with Mrs. Harris Rankin and Miss Greg as her assistants. The young women who serve on this committee are finding very true the saying: "The poor ye have with you always." The next meeting of the club will be with Miss Angie Thomas.

TRUST COMPANY.
PADUCAH FINANCE AND SAFETY VAULT COMPANY LAUNCHED.
At a meeting of representative gentlemen of the city held last night at the office of J. D. Mookoot, steps were taken to organize a company to do a general trust business under the name of the "Paducah Finance and Safety Vault Co." with a capital stock of \$50,000. A large part of the stock was subscribed for at the meeting and it was determined to open subscription books in Paducah and the adjoining towns at once for the completion of the capital.
When the stock is all taken the incorporators will file articles of incorporation in the office of the secretary of state and begin business.

SUIT ON NOTE.
LOEB & BLOOM FILE SUIT AGAINST JAS. M. WATSON.

NO JURISDICTION.
Frankfort, Ky., March 23.—The court of appeals today dismissed the appeal of W. D. Bottoms, of Lexington, in a case in which the appellant was fined \$10 for keeping his saloon open on Sunday. The court holds that it has no jurisdiction. About sixty other saloons, fined for the same offense at Lexington, are affected by the decision.

EMPEROR IS OUT
Berlin, March 23.—Emperor William drove out for the first time since the attempt on his life. He visited the imperial mausoleum at Charlottenburg in a closed carriage, accompanied by the Empress; deposited a wreath, and returned to the castle. Their majesties were everywhere warmly welcomed.

DR. EATON CHOSEN PRESIDENT.
Richmond, Va., March 23.—The Southern Baptist Press Association in session here elected Dr. T. T. Eaton, of Louisville, president. The matter of the next meeting place was left in the hands of the executive committee, Charleston, S. C., and Savannah, Ga., are mentioned in this connection.

CUBAN POSTAGE.
Washington, March 23.—As a result of the cabinet meeting today, the postmaster general will issue an order establishing the domestic rate of postage between the United States and Cuba, the order to take effect on April 1.

THE EQUINOX.
ROUGH AND CHANGEABLE WEATHER MAY BE EXPECTED TO CONTINUE.
This is the time for the vernal equinox and the days and nights are now of equal length, the world over, the sun rising and setting at 6 o'clock, making the days and nights twelve hours each in length.
The sun now stands vertically over the equator and lights the earth from the north pole to the south. It will apparently move northwest from this time on until the 21st day of June, when it will stand vertically over the Tropic of Capricorn and we will have the longest days of the year in this latitude.
Rough and changeable weather may be expected to continue for some time, as sudden changes and squally weather generally accompanies the equinoctial period.

BIG SUITS.
RAILROADS ATTACK FRANCHISE TAX.
Frankfort, Ky., March 23.—Four leading railroads of the state have filed suits in the Franklin circuit court seeking to enjoin the state board of assessment and valuation from certifying their franchise valuations to the counties through which they pass for local taxation.
The suits filed are by the L. and N., the Southern, in Kentucky; the Illinois Central and the C. and O. The Cincinnati Southern will file a similar suit.
The petitions raise a new and bigger question than the one raised before the board as to taxation for local purposes and attacks the validity of the taxation of the franchisees for any purpose whatever. If the roads should win this contention in the courts, the franchisees would not only be exempt from taxation in the future, but the state would be called upon to refund the taxes paid by them on this account for the last two years amounting to \$300,000 for each year.

THE PITTSBURG.
The steamer City of Pittsburgh got away from the falls about 6 o'clock last evening, after being held up four hours on account of the accident, as the Sun reported yesterday. The boat had a very narrow escape from disaster. She struck the left pier of the Indiana chute a glancing blow, damaging eight feet of her hull. Had she hit the pier full river men say she would have gone to pieces. In the swift water of the falls at this stage of the river there would have been a big loss of life. The steamer carried forty passengers and a crew of twenty. A heavy wind was blowing off the Indiana shore, and at a critical time the cord to the signal bell broke, and the engineer "went ahead," when he should have "backed." The steamer resumed her journey last night after a short stay at New Albany. The damage to her hull will be repaired by the boat's carpenter. The accident is the talk in river circles, and all agree that it was the narrowest escape from the worst river disaster in years.

BANKERS MAKE PLEA.
Frankfort, Ky., March 23.—A committee representing the Kentucky State Bankers' association before the state board of assessment and valuation in the interest of the banks, which will shortly come before that body for assessment on their corporate franchises. The committee consisted of Col. J. D. Powers, of Owensboro, and Messrs. David Banks, of Henderson, and S. N. Leonard, of Edgville. Col. Powers, the chief spokesman, argued that real estate is not assessed in any of the counties of the state at its cash value, as is required by the constitution, but, on the contrary, in most instances goes in below what it would bring at forced sale; that a great deal of personal property is not listed at all, and it is therefore unfair to assess corporate property up to its full limit.

Some anonymous and craven coward sent us for Christmas a copy of Webster's Unabridged Dictionary, with a note telling us to read it and reform our spelling. We have seen some of this here spelling reform, and if we couldn't spell any better than we'd quit editing a newspaper. We can't see why we shouldn't spell as we please anyhow. You take these here scholars who write about old ancient times, and they'll spell Nebuchadnezzar's name for instance as many ways as there are days in a year. We've got the same right, and if you don't like our spelling why you can try that of the spelling reformers.—Hardeman Free Press.

It is not generally known that on account of the opposition of his children to his second marriage—an opposition he acknowledged to have some justice in it—ex-President Harrison distributed all his fortune among his children, retaining only his house and lot in Indianapolis. He then started out to make a second fortune and made one larger than his first, which he has now lost solely to his second wife and child. The action was characteristic of the man and illustrates the stern stuff of which he was made.—Chicago News.

Mrs. Helen Hascall Woodward, of Virginia, will deliver a course of three health lectures, exclusively to ladies, mothers and daughters, with elegant anatomical illustrations, at lecture room of the Christian church, commencing Thursday, March 21, at 2:30 p. m. Subjects: Thursday, March 21, "Anatomy of Woman." Tuesday, March 26, "Woman of the Nineteenth Century. Her Possibilities." Thursday, 28th inst., "Health and Beauty." These lectures are endorsed by both pulpit and press, throughout the country, as chaste, intelligent and instructive. All ladies are cordially invited. No admission charged.
